## Forward-Looking Statements

In this presentation, when using the terms the “company”, “DRS”, “we”, “us” and “our,” unless otherwise indicated or the context otherwise requires, we are referring to Leonardo DRS, Inc. This presentation contains forward-looking statements and cautionary statements within the meaning of the Private Securities Litigation Reform Act of 1995. Some of the forward-looking statements can be identified by the use of forward-looking terms such as “believes,” “expects,” “may,” “will,” “shall,” “should,” “would,” “could,” “seeks,” “aims,” “strives,” “targets,” “projects,” “guidance,” “intends,” “plans,” “estimates,” “anticipates” or other comparable terms. Forward-looking statements include, without limitation, all matters that are not historical facts. They appear in a number of places throughout this presentation and include, without limitation, statements regarding our intentions, beliefs, assumptions or current expectations concerning, among other things, financial goals, financial position, results of operations, cash flows, prospects, strategies or expectations, and the impact of prevailing economic conditions.

These statements are subject to numerous assumptions, risks, and uncertainties, many of which are outside of our control, and include the risks and uncertainties that are identified in the Risk Factors section in our latest Annual Report on Form 10-K for the year ended December 31, 2022, and in other periodic and current reports we file with the SEC. While the forward-looking statements herein reflect our current expectations, no assurance can be given that the results or events described in such statements will be achieved, and our actual results may differ materially from the results we anticipate. Our guidance for fiscal 2023, and the other statements regarding our financial outlook are expressly made as of May 3, 2023 (the date of our first quarter 2023 earnings press release and conference call). We undertake no obligation to revise or update any of these forward-looking statements (whether as a result of new information, subsequent events or circumstances, changes in expectations or otherwise) that may arise after the date of this presentation.

## Non-GAAP Financial Measures

In addition to the results reported in accordance with U.S. GAAP included throughout this presentation, the company has provided information regarding “Adjusted EBITDA,” “Adjusted EBITDA Margin,” “Adjusted Net Earnings,” “Adjusted Diluted Earnings Per Share” (each, a non-GAAP financial measure).

We believe the non-GAAP financial measures presented in this document will help investors understand our financial condition and operating results and assess our future prospects. We believe these non-GAAP financial measures, each of which is discussed in greater detail in the appendix, are important supplemental measures because they exclude unusual or non-recurring items as well as non-cash items that are unrelated to or may not be indicative of our ongoing operating results. Further, when read in conjunction with our GAAP results, these non-GAAP financial measures provide a baseline for analyzing trends in our underlying businesses and can be used by management as a tool to help make financial, operational and planning decisions. Finally, these measures are often used by analysts and other interested parties to evaluate companies in our industry by providing more comparable measures that are less affected by factors such as capital structure.

We recognize that these non-GAAP financial measures have limitations, including that they may be calculated differently by other companies or may be used under different circumstances or for different purposes, thereby affecting their comparability from company to company. In order to compensate for these and the other limitations, management does not consider these measures in isolation from or as alternatives to the comparable financial measures determined in accordance with U.S. GAAP. Readers should review the reconciliations on page 7 and should not rely on any single financial measure to evaluate our business.

# Key Messages

1

## First quarter results ahead of expectations

- Strong execution in the quarter resulting in incrementally better linearity within 2023
- Q1 results provides increased confidence in achieving reaffirmed full year guidance

2

## Strong bookings and backlog growth continue to reinforce the company's differentiation

- Broad based demand throughout the company's technology portfolio
- Electric power and propulsion, rotary-wing survivability, dismounted soldier and ground vehicle sensing, secure tactical terminals and advanced battle management technologies drove Q1 bookings

3

## Long-term growth opportunity building and becoming more visible

- Customer requirements supporting growth opportunities across the company's four key technology areas
- Navy's desire to use an electric power and propulsion system for DDG(X) confirms the viability and importance of the technology
- Evolving customer missions driving opportunities for adoption of DRS capabilities in the areas of advanced force protection, space sensing, integrated sensing and next generation SIGINT / ELINT

4

## Continued focus on execution to deliver long-term shareholder value

- Concerted efforts on converting backlog to accelerate growth throughout 2023
- Prudent organic investment to sharpen the long-term positioning of the business

# Reaffirming 2023 Guidance

## Remain Well-Positioned to Achieve Solid Organic Growth in 2023

- **Revenue Growth**

- Total growth of up to 4% and implied organic growth of 2.5% - 6% (reflects impact from divestiture of GES and acquisition of RADA)
- Organic revenue growth outlook remains above peers and market

- **Adjusted EBITDA Margins**

- Margins essentially flat compared to 2022
- Margin improvement on Columbia Class transition to production offset by inflation as well as increased expenditures related to company funded R&D and incremental public company costs
- Focused on cost discipline to drive long-term margin improvement

- **Quarterly Cadence**

- Stair-stepped revenue trajectory and slightly steeper profit trajectory for balance of 2023
- Fourth quarter contributes the greatest percentage of annual revenue, profit and cash flow
- Significant cash flow utilization in first quarter and generation in fourth quarter

(In millions, except per share amounts)

2023 Guidance	
<b>Revenue</b>	\$2,700 - \$2,800
<b>Adjusted EBITDA *</b>	\$315 - \$330
<i>Tax Rate</i>	24%
<i>Diluted Shares Outstanding</i>	263.1
<b>Adjusted Diluted EPS *</b>	\$0.64 - \$0.69

\* The company does not provide a reconciliation of forward-looking adjusted EBITDA and adjusted diluted EPS, due to inherent difficulty in forecasting and quantifying these non-GAAP exclusions that are necessary for such reconciliation without unreasonable effort. Material changes to any one of these items could have significant effect on future GAAP results.

# Non-GAAP Financial Measures

## Definitions and Reconciliations

In addition to the results reported in accordance with U.S. GAAP included throughout this presentation, the company has provided information regarding “Adjusted EBITDA,” “Adjusted EBITDA Margin,” “Adjusted Net Earnings,” “Adjusted Diluted Earnings Per Share” (each, a non-GAAP financial measure).

**Adjusted EBITDA** and **Adjusted EBITDA Margin** are defined as net earnings before income taxes, interest expense, amortization of acquired intangible assets, depreciation, deal related transaction costs, restructuring costs, other non-operating expense (which includes non-service pension expense, COVID-19 response costs, foreign exchange impacts) and gain on sale of dispositions, then in the case of adjusted EBITDA margin dividing adjusted EBITDA by revenues.

**Adjusted Net Earnings** and **Adjusted Diluted EPS** are defined as net earnings excluding amortization of acquired intangible assets, deal related transaction costs, restructuring costs, other non-operating expense (which includes non-service pension expense, COVID-19 response costs, foreign exchange impacts), gain on sale of dispositions (net of taxes) and the related tax impact from net earnings, then in the case of adjusted diluted EPS dividing adjusted net earnings by the diluted weighted average shares outstanding
